

To whom it may concern,

As a CEO of a financial services firm, I needed to find a piano instructor that could help me capitalize on the limited time availability on my crowded calendar to help me accomplish one of my life-long dreams which is to learn to play the piano. Irene Brewda has fit that role perfectly. Her attention to detail and a very structured teaching method have helped me cross the line between being curious about taking lessons to now looking forward to them.

Specifically:

- A diary of the lessons and the items that were covered during the classes
- A music study system which Irene created to help students understand the different notes and how to read/play them. It is this unique and effective method that has helped me learn so quickly.
- A breathing technique to help you concentrate and relax, along with a positive mental attitude that can be used in any area of our busy lives
- A warm and inviting setting where there are no distractions
- A gentle and encouraging way of correcting and improving her students performance
- A focus on a progressive plan to that takes moves the student up the different levels
- A sincere and patient way of encouraging her students Please let me know if you would like to discuss my very positive experience.

Sincerely,

Rick Latta, CEO
