

Mrs. Irene is very dedicated to her music education. Very caring and professional. She has a very organized system and a series of helpful music methods herself to build my daughter's strong foundation in music theory. Even though my daughter was still very young when she started to learn, Mrs. Irene always tried her best to make learning fun and age appropriate but still guided my daughter to go above and beyond. Besides that, she is very willing to work with parents to reinforce music education at home. Her teaching and methods have inspired my daughter's love and gifts in music. My daughter has won several awards and auditions in piano performances. She's also in the state's talented music education program. We truly appreciate what Mrs. Irene has done for our daughter.
